Subject: L'Anse Warden Electric Generating Company, L'Anse MI - Section 114 Request [WNJ-DMS.FID144451]
Attachments: removed.txt

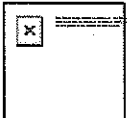

Dear Ms. Smith,

We are outside counsel for LWEC and attempted to reach you by phone this afternoon relative to the Section 114 Request which was received by the facility today. Please be advised that it is the intention of the company to respond to the information request. However, we are somewhat surprised by the relatively short period (7 calendar days) to provide responses to the first two requests which would require LWEC to place in the mail, in a specific format, a significant volume of information by next Friday, November 13. As you may be aware, LWEC is a relatively small facility located in the Upper Peninsula of Michigan, with limited staff resources. To assure that the response to these first to items is compliant with EPA's request and is in the appropriate format, we would request an extension to November 20, 2015 to provide this initial response.

As you recognize, the balance of the information request seeks information dating back to 2002. Once LWEC has had an opportunity to fully assess the scope of the effort required to respond to the remaining items we will be able to advise you whether additional time might be needed beyond the 30 days afforded.

As I will be out of my office on vacation until November 16, please feel free to contact Mr. Richardson at LWEC. He is copied on this email and can be reached at 906-885-7187.

Thank you for your attention to this matter.
